

Krishnaveni A

Python Full Stack Developer

Madurai | 9442289542 | akrishnaveni2000@gmail.com | LinkedIn | GitHub

PROFESSIONAL SUMMARY

Python Full Stack Developer with hands-on experience in **Python, Django, Django REST Framework, REST APIs, JavaScript, SQL, and PostgreSQL/MySQL**. Experienced in developing authentication systems, CRUD applications, role-based access control, database-driven web applications, and RESTful APIs. Built and deployed an **AI-powered Project Management Platform** with JWT authentication, project/task management, reporting, notifications, and OpenAI API integration. Strong understanding of **OOP, Django ORM, MVC/MVT architecture, API testing, Git, and full-stack application development**.

SKILLS AND LANGUAGES

- **Languages:** Python, JavaScript (ES6+), HTML5, CSS3, SQL
- **Backend:** Django, Django REST Framework, FastAPI, RESTful APIs, Django ORM
- **Frontend:** HTML, CSS, Bootstrap, JavaScript, jQuery, React.js
- **Databases:** PostgreSQL, MySQL, SQL
- **Authentication & Security:** JWT Authentication, Authentication & Authorization, Role-Based Access Control
- **AI & APIs:** OpenAI API Integration, OCR, REST API Integration
- **Tools & Deployment:** Git, GitHub, VS Code, Postman, Railway
- **Core Concepts:** OOP, Data Structures, CRUD Operations, MVC/MVT Architecture, API Testing, Database Management

EXPERIENCE & INTERNSHIP

Software Developer | Protekk Web Technologies LLP

Chennai, Tamil Nadu | Sep 2024 – Jan 2025

- Developed web application modules using **Python, Django, JavaScript, HTML, and CSS**.
- Implemented **authentication, CRUD operations, database functionality, and API integrations**.
- Performed **debugging, API testing, and application troubleshooting** to improve application reliability.

Project Intern | COS AI

Madurai, Tamil Nadu | Dec 2022 – Apr 2023

- Developed an **Automated Parking Management System** using Python and Django with OCR-based vehicle identification.
- Implemented **dynamic parking slot allocation, vehicle tracking, automated fee calculation, and payment workflows**.
- Built database-driven functionality using **PostgreSQL** for vehicle, parking, payment, and transaction management.

PROJECTS

AI Project Management Platform (AIPM)

Technologies: Python, Django, Django REST Framework, PostgreSQL, JavaScript, Bootstrap, OpenAI API, JWT, Railway

- Developed and deployed a full-stack **AI-powered project management platform** for **companies, employees, teams, projects, sprints, tasks, bugs, notifications, and reports**.
- Built **RESTful APIs with Django REST Framework**, JWT authentication, and **role-based access control** for administrators, project managers, and employees.
- Implemented project/task workflows including **assignment, priorities, statuses, sprint planning, reporting, and analytics**.
- Integrated an **OpenAI-powered AI Assistant** for project summaries, task suggestions, priority recommendations, deadline suggestions, and sprint planning.
- Used **Django ORM and PostgreSQL**, tested APIs with **Postman**, and deployed the application on **Railway**.

Live Demo: [AIPM Live Demo](#)

Source Code: [GitHub](#)

Automated Parking Management System (APMS)

Technologies: Python, Django, OpenCV (OCR), PostgreSQL, HTML/CSS, JavaScript

- Developed an **ANPR/OCR-based vehicle identification system** with real-time parking slot allocation and tracking.
- Built a web dashboard for **parking occupancy, automated fee calculation, and analytics**.
- Integrated payment processing for **Credit/Debit Cards, UPI, and Net Banking** with backend database synchronization.

EDUCATION

M.Sc.Information Technology | Fatima College, Madurai | CGPA: 84.5 | (2021 – 2023)

B.Sc.Information Technology | Fatima College, Madurai | CGPA: 74.5 | (2018 – 2021)

CERTIFICATIONS & PUBLICATIONS

- **Python Full Stack Development with AI** | Innovel Training & Placement
- **Research Publications:** Research Paper Publication (IJRPR)
